

<i>Preface to the 3<sup>rd</sup> edition</i>	<i>pag.</i> XIII
--	---------------------

## PART ONE

### Unit 1

#### Medicine and Healthcare: key concepts and topics

1.	Defining medicine	1
	1.1. Defining medicine by other goal-oriented practices	1
	1.2. Medicine, health & wellbeing	1
	1.3. Medical professionalism	2
2.	Medical care systems and practices	2
	2.1. Folk medicine	2
	2.2. Alternative medicine	2
	2.3. Mainstream scientific medicine	3
3.	Understanding the science and art of medicine	3
	3.1. Medicine as science	3
	3.2. Medicine as art	4
	3.3. Science and art of medicine go hand in hand	4
	3.4. Evidence-based medicine and other approaches	4
4.	Medical science and art: a comprehensive view	4
5.	History of medicine	5
	5.1. The early days of medicine	5
	5.2. Greek and Roman medicine	5
	5.3. Early modern era of medicine: 16th-18th centuries Renaissance	6
	5.4. Advances in modern medicine: 19th century	6
	5.5. Medicine in the 20th century and beyond	7
6.	Healthcare delivery systems and interprofessional care teams	7
	6.1. Interprofessional collaboration	7
	6.2. Interprofessional care teams: the UK healthcare system	8
	6.3. Types of healthcare services	8
	6.4. Primary healthcare	8
	6.5. Secondary healthcare	9
	6.6. Tertiary healthcare	9
	6.7. Digitalisation of healthcare services: telemedicine	9
7.	Medical education	9
	7.1. Medical education in the UK	10
	7.2. Medical regulatory bodies	10
8.	Branches of medicine	10
9.	Medical conditions	14
	9.1. Medical conditions: distinctions	14
10.	Doctor-patient relationship	17
	10.1. Instrumental and affective components in doctor-patient relationship	17
	10.2. Doctor-patient relationship and medical ethics	18
	10.3. Types of doctor-patient relationship	18
	10.4. Main requirements for a good doctor-patient relationship	19
	<i>Review: True or False?</i>	24
	<i>Spot-Check: Speaking or Writing</i>	28

**Unit 2****Professionalism and ethics in medicine and healthcare: development of concepts and topics**

1.	Professionalism in medical practice: past and present	29
2.	Maintaining professional standards and values in healthcare	29
	2.1. Scientific and technical competency standards	29
	2.2. Ethical standards and values	30
	2.3. Professionalism in medical practice: an inclusive concept	30
	2.4. Professional and ethical codes of conduct	30
	2.5. Obstacles to professionalism in medical practice	30
3.	Understanding ethics in more detail	31
	3.1. Where does ethics come from?	31
	3.2. Fields of application	32
4.	Medical ethics	32
	4.1. Medical ethics: four basic principles at a glance	32
	4.2. Medical ethics: a close look at the four principles	33
	<i>Autonomy</i>	33
	<i>Beneficence</i>	33
	<i>Nonmaleficence</i>	33
	<i>Justice</i>	33
5.	Understanding medical professionalism in more detail	34
	5.1. <i>Physician Charter</i> on medical professionalism	34
	<i>Principles of professionalism</i>	34
	<i>Professional responsibilities</i>	34
6.	Medical professionalism: views from academic scholarship	35
	<i>Virtue ethics</i>	35
7.	Defensive medicine	36
	7.1. Medical malpractice: what is it?	36
	7.2. Most common medical negligence cases	36
	7.3. Grounds for a medical negligence claim	36
	<i>Review: True or False?</i>	37
	<i>Spot-Check: Speaking or Writing</i>	39

---

**PART TWO****Unit 3****Discourse analysis in medicine and health: understanding medical language as text, genre & discourse**

1.	Defining discourse	40
	1.1. What does discourse analysis do?	40
	1.2. Summing up	40
2.	Different methods of discourse analysis	41
3.	Discourse analysis in medicine and health: what does it do?	42
	3.1. What are some of the studies in the area?	43
	3.2. What else do we learn from medical discourse analysis?	43
4.	Medical language as text, genre & discourse	44
	4.1. Variety of medical texts and genres	44
	4.2. How can we do discourse analysis of medical texts?	46
	<i>Reflection and review</i>	46
	<i>Extension: deciding what to look for and taking notes</i>	46
	<i>Self-Assessment Questions</i>	47

**Unit 4****English for Specific Purposes & English for Medical Purposes**

1.	The scope of English for Specific Purposes – ESP	50
1.1.	The ESP movement over the years	50
1.2.	ESP as an inclusive concept	50
2.	The global context of English	50
2.1.	The use of English across Circles	51
2.2.	The global context of English as a <i>lingua franca</i> of international medical communication	51
3.	General characteristics of medical English: lexis and syntax	51
	<i>Lexis</i>	51
	Linguistic sources of medical English terms	51
	Spelling differences: medical terms in British and American English	52
	Different layers of medical vocabulary	53
	Derivation	53
	Compounds	54
	Acronyms and initialisms	55
	Monoreferentiality and denotation	55
	Synonymy	55
	Eponymy	56
	Metaphors	56
	<i>Grammar</i>	56
	Density of information: noun phrases	56
	Impersonal v. personal structures and passivisation	57
	Verb Tenses	58
	Reporting verbs	59
	Modal auxiliary verbs	59
4.	Plain language in healthcare	59
	<i>Reflection and review</i>	61

**Unit 5****Genre-based approaches to English for Specific Purposes and English for Medical Purposes**

1.	Understanding genre: different traditions of genre studies	62
1.1.	Academic vs. professional contexts: how do we identify discourse elements of medical genres	63
2.	ESP and genre studies: <i>discourse community, communicative purpose, move</i>	63
2.1.	Academic genres	63
2.2.	Professional genres	64
2.3.	Understanding medical genres for their communicative purposes	64
3.	Interdiscursivity: critical genre analysis	65
4.	Variation across academic disciplines	66
4.1.	Interdisciplinarity in medical disciplines and sciences	66
4.2.	English for Medical Purposes: the discourse and genre of medical research	66
4.3.	Empirical research in medicine: cohort studies - case-control studies	67
5.	How language works in medical research writing: metadiscourse	67
5.1.	Metadiscourse: ideational, interpersonal and textual functions	68
5.2.	Metadiscourse at work	68
6.	Genre and medical translation	69
	<i>Reflection and review</i>	70

**Unit 6****Studying the discourse structure of academic and professional medical genres for communicative moves and language use**

Reviewing genre	71
What you are guided through	71
The Medical Research Article <i>Abstract</i>	71
Types of Abstracts	71
Structure	71
Language use	73
Title construction	73
The Medical Research Article <i>Introduction</i>	74
Structure	74
Language use	74
The Medical Research <i>Article</i>	77
Other sub-genres	77
Structure	77
Language use	80
The Research <i>Poster Presentation</i>	80
Structure	80
Language use	80
The Medical <i>Case Report</i>	80
Varieties of case reports	81
Case report vs. research article	81
Structure	81
Language use	85
<i>Reflection and review</i>	85

**Unit 7****Putting academic and professional genres into real contexts of EMP practice**

1. The Medical Research Article <i>Abstract</i>	86
Task 1: Analysing abstracts for their rhetorical moves	86
2. The Medical Research Article <i>Introduction</i>	89
Task 2.1: Analysing rhetorical moves and metadiscourse	89
Task 2.2: Sentence fragments	95
3. The Medical <i>Abstract</i> and <i>Research Article</i> put together	96
Task 3.1: Identifying fragments of abstract and research article for content and structure	96
Task 3.2: Matching	98
Task 3.3: Preparing your research: <i>PowerPoint poster presentation</i>	98
4. The Medical <i>Case Report</i>	100
Task 4.1: Analysing genre for language use	100
Task 4.2: Reading comprehension	105
Task 4.3: Keeping your move knowledge fresh	105
